Identifying Funding Sources:
How to Search for Funding Opportunities for Graduate Research and Study

Graduate Funding Information Center (GFIC)
The Graduate School at UNC

200 Bynum Hall
gfic@unc.edu
Topics for Today

• Funding fundamentals
• Funding guides
• Funding databases
  • Carolina Internal Funding Database
  • COS Pivot
• Proposal writing help
  • Successful Proposals Collection
Funding Fundamentals

• START EARLY. Many (though not all) application cycles will have deadlines in the early fall or spring.

• Become familiar with major programs and sponsors in your field.

• Find out how people get funded in your department and what listservs you should join. (especially good for finding under publicised opportunities)

• Research funders thoroughly before you apply.

• Trade up. Funders, especially for large national competitions, look favorably on applicants who have already competed successfully for smaller grants.

Funding Resources

Funding Guides

General guides for graduate students, and Discipline- and population-specific funding lists available at http://grantsinfo.unc.edu/guides

Books

• *The Graduate School Funding Handbook* (Hamel, 2012)

• *Graduate Study for the Twenty-first Century: How to Build an Academic Career in the Humanities* (Semenza, 2010)

• *Financial Aid for … series* (2012)

• *The “How To” Grants Manual, 7th ed.* (Bauer, 2011)

The Davis Library subject area librarians can help you find more books.
Funding Databases

**COS Pivot**
- Comprehensive, multi-disciplinary database containing thousands of funding opportunities
- Save searches, receive funding alerts by email

**Carolina Internal Funding Database**
- Contains about 300 funding opportunities sponsored or administered by UNC-Chapel Hill
- Most opportunities require applicants to be affiliated with UNC
- Click on “funding search” to filter opportunities by criteria. You can only search one field at a time, and running an empty search will retrieve everything in the database.
- View the dropdown list under “internal sponsor” to see which offices, departments, and centers provide funding.
Tips for searching COS Pivot

Always use *Advanced Search*. You can find instructions for using each field by expanding it and clicking the grey info icon.

- **Keywords**
  
  Brainstorm broad and specific keywords, approach your work from different perspectives, and try multiple combinations. When possible, use pivot’s predefined keywords instead of free text.

- **Applicant Type**
  
  Select status and check all other categories that apply (“women”, “minorities”, “persons with disabilities”)

- **Citizenship**
  
  Especially important for international students.

- **Funding type**
  
  For graduate students, usually “dissertation/thesis” or “training, scholarship, or fellowship” or “travel”
More Pivot Tips

- **Create a Profile** (free with your unc email address) to save searches and manage alerts.
  - saving a search will let pivot notify you when that search retrieves new opportunities.
- **Fill out your profile information** to allow pivot to recommend opportunities for you.
- **Notice which predefined keywords** appear on good matches and run searches using them.
- **Visit ProQuest Pivot’s Youtube Channel** to watch tutorial videos on how to use the site. [https://www.youtube.com/user/ProQuestPivot](https://www.youtube.com/user/ProQuestPivot)

Proposal Writing Resources

Successful Proposals Collection

- Database of Carolina graduate students’ successful applications
- Look for examples where students establish a sincere, enthusiastic tone; supply appropriate detail; and appeal to funders without pandering.

Other Proposal Writing Guidelines:

- Grant Writing Tips for Graduate Students (Chronicle of Higher Education)
- Grant Proposals (or Give me the money!) (UNC Writing Center)
- Art of Writing Proposals (Social Sciences Research Council)
- Personal Statements and Essays (WPI)
